

## **MID CHESHIRE LINE—STATION-TO-STATION WALKS**

The **Mid Cheshire Community Rail Partnership** would like to share a whole host of different walks with you to experience along the **Mid Cheshire Line!**

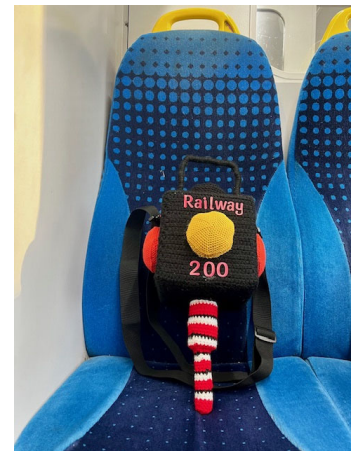

These are linear walks from station to station, so you can do as much or as little as you want.... From one of about a mile to all of them at around 60 miles in total....The choice is yours! They go through Cheshire towns, villages and countryside linking together the cities of Manchester and Chester.

These walks were kindly put together, plotted and shared by our volunteers to celebrate **Rail 200**, so a huge thank you to them. In September 2025, a baton was carried along all these routes by around 100 people over 6 days to commemorate the very first passenger train in the UK.

We have used the **OS Map App** which will guide you along the way. Download it on your phone, and you're away. We have also produced some additional notes and instructions to keep you on track. You'll be pleased to know that they include some places to stop, rest and refresh yourselves before starting, as a pitstop along the way or to even celebrate at the end of it. You can then use the Mid Cheshire Line for your return journey—a perfect day out!

You will be walking through different landscapes so....

- Take care when crossing roads
- Use footpaths where available
- Stay to the right on roads with no footpaths
- Be cautious of livestock in fields, close all gates
- Be aware of the country code
- 

These are recommended walks and we've done our very best to be as accurate as possible. If you find any corrections that are needed, please let us know at [ann.pickup@midcheshirerail.org.uk](mailto:ann.pickup@midcheshirerail.org.uk) so we can update the instructions and maps accordingly. Many thanks in advance for your help.

Finally, just enjoy! Have fun. Stay safe.... And feel free to share your experiences with others via social media. You can find us on
